NETWORK RULES

01 **Register attribution first.** B records A before B's first customer submission. One inviter per B; no backdating or switching. Ends after payout or 12 months.

02 **One time, direct only.** B's first approved reward triggers 100% for A. No share of B's later rewards or people introduced by B.

03 **Not paid for recruiting.** No entry fee, purchase requirement, recruitment target or recurring override.

04 **No agency authority.** Never quote, promise, contract, collect money or change terms for EvoMap.

05 **Attribution is per Deal.** Earliest valid registration wins; separate departments, regions or independent buying decisions may be separate Deals.

06 **Lawful, consented data only.** Never use employer CRM data, confidential lists or unauthorized information.

07 **No conflicts or bribery.** Follow employer duties, procurement rules and never share rewards with customer staff.

08 **Review and recovery.** Duplicate, split, self, false, no-show or non-compliant referrals may be rejected or recovered.

Participants confirm lawful independent participation and all required employer/customer approvals; they must comply with employment, confidentiality, non-compete, conflicts, anti-bribery, procurement, privacy and tax rules. The 100% is a one-time activation reward on the invited seller's first approved referral—not a payment for headcount, downstream or later performance. Participants cannot represent EvoMap. EvoMap may review, reject, terminate or recover non-compliant rewards. Final eligibility and settlement depend on written approval and local law.
